Advanced Skin Treatments

Luxury Microdermabrasion..... £50 55mins
This treatment uses a mildly abrasive instrument to gently sand your skin, removing the thicker, uneven outer layer. This type of skin rejuvenation is used to treat light scarring, discolouration, sun damage and stretch marks.

Express Microdermabrasion
Skin typically regenerates at approximately 30 day intervals so skin improvement with microdermabrasion is temporary unless it is repeated every 2-4 weeks for continued improvement. Usually, we recommend 6 to 12 sessions to see a significant improvement which should then be followed by a monthly maintenance session.
3 Sessions £100 25mins
6 Sessions £180 25mins

ALL THINGS LASH & BROWS

Lash & Brow Enhance

Brow Tint £10
Lash Tint £12.50

Hi-Brows £20
Hi Brows is a high-precision procedure that transforms your eyebrows into their perfect shape, dramatically enhancing your facial features.

Ellebana Lash Lift £36
The Lash Lift is a semi-permanent treatment that gives your natural lashes an illusion of perfectly curled lashes with added definition. It is a great alternative to eyelash extensions, as it requires very little maintenance and has long lasting results.

Lash Extensions

Party £20
These cluster eyelashes add instant fullness because of their multi-lash flare and they tend to be smaller and shorter than false eyelash strips. They last between 5-7 days & require no maintenance.

Express £36
Express lashes are a temporary lash treatment and are a quicker and less expensive alternative to classic lash extension treatments. They are not individually bonded so it is important that they are only a short term set to avoid natural lash damage. They last 2-3 weeks and require no maintenance.

Classic £45
Classic lashing is a technique in which a single extension is applied to one isolated natural lash. Classic lashes are perfect for adding length and some fullness to your natural lash line. After your initial full application, you will require 2 weekly top ups to keep your lashes looking their best.

Hybrid £55
The Hybrid technique is a combination of two different lash application techniques rolled into one set of lashes. At Enhance we use a mix Classic and Russian Lash techniques in our hybrids. After your initial full application, you will require 2 weekly top ups to keep your lashes looking their best.

Russian £65
Russian lashes are ultra-fine synthetic lashes that are made from the same soft fibre as classic lashes. Because they're much thinner, the therapist is able to apply more lashes to each natural lash – anything between 2-8. Russian lash extensions are applied in a fan-like shape, which gives more volume too. After your initial full application, you will require 2 weekly top ups to keep your lashes looking their best.
